TEACHER'S INTERVIEW

It's exciting to share that our students have been participating in the enriching Montessori activities from practical life skills to language development and sensorial exploration, our students are engaging in dynamic, hands-on learning experiences that promote growth and development.

In addition to our Montessori activities, our students have also been actively engaged in art and craft activities. I believe that these activities are an integral part of our students' overall learning experience, as they help to promote both cognitive and emotional development.

I'm proud of my students' accomplishments and look forward to continuing to provide them with a well-rounded and stimulating educational experience.
